Re: Letter of Endorsement.

To Whomever T May Concern:

This letter is written to indicate the endorsement of the Carver Terrace Community Store that is a part of the request for change in "zoning status: for the Carver Terrace Community Center. The Carver Terrace Community store is a business established by former Tenants of the Carver Terrace community, and it has been operating in the community for over 10 years.

The community has sorely missed the store that had to temporally close while the property was being redeveloped and modernized. With the expectation of the store's return the community is your ultimate decision to grant rezoning for the Community Center.

As the Executive Director of the Carver Terrace Tenant and Civic Association, it is my concern for needed services in the community for community families and youth, and the Carver Terrace Community Store is a convenient service that is needed by my constituents. With this being said, I implore you to grant rezoning so that the store can be reestablished in the community of Carver Terrace.

If there is need for further inquiry into this matter, I can be reached at 202-397-1320. Thank you and please have a good day.

Sincerely,

William M. Stokes
