BEFORE THE BOARD OF ZONING ADJUSTMENT
FOR THE DISTRICT OF COLUMBIA

IN RE: 5111 Connecticut Ave. N.W. Square 1989, New Lot 162 Previous Lots 49-57 & 161	)	**BZA Appeal No. 17127**
Appeal of	)	
The Nebraska Avenue Neighborhood Association	)	
and	)	
Advisory Neighborhood Commission 3G	)	

D.C. OFFICE OF ZONING
2007 MAR 26 AM 10:09

APPLICANTS' APPEAL OF THE ADMINISTRATIVE DECISION TO ISSUE SEVERAL REVISION BUILDING PERMITS FOR 5111 CONNECTICUT AVE., N.W.

Permit Nos. B456618, B454064, B454315, B454323 & B454596

A. History of the permits under appeal.

The original permit application (B435464 -- incorporated by reference) was ambiguous and otherwise inaccurate. One could not determine accurately from the permit application materials details such as building footprint, building height, FAR, delivery/service/loading facilities and rear yard setback. Sunrise Development ("Sunrise") then constructed the building, and only then were the above parameters determined.

Subsequently, Sunrise applied for revision permits more closely reflecting the actual building. These applications and permits were submitted in piecemeal fashion (Appendix A). Descriptions of work to be done on various permits were incomplete and misleading.

BZA
Case No. 17127
Exhibit No. 14

Board of Zoning Adjustment
District of Columbia
CASE NO. 17127
EXHIBIT NO. 14

Two examples: (1) We received roof revision plans. However, none of the permits mentioned any revisions to the roof; (2) Permit No. B454596 describes "Revised permit #B435464 per attached drawing." Yet it does not specify the work to be done. Throughout the process, at no time has Sunrise provided plans for a fully consistent and functional building. For example, the elevator shaft footprint was changed floor by floor, and permit and permit, resulting in a disjointed elevator shaft.

Most of the building was complete before the set of revision permit applications under appeal began to be submitted. This piecemeal process circumvents D.C. regulations and impedes the appeal process. In fact, the plans submitted with permit applications in 2003 were dated 4/16/02, well before the hearing of the previous appeal (June 18, 2002). While Sunrise testified at that hearing that they would build only according to approved plans, they apparently already had the revisions in their construction plans which they did not submit to DCRA until over a year later.

Furthermore, the "Description of Proposed Work" on various permits was inaccurate. In addition, our access to permit materials was limited. We could not determine at what point in time various parts of the building design were permitted.

Not all permits were reviewed by all the relevant officials, including the zoning administrator. **Exhibit A** includes a chart of relevant permit application details; the chart is followed by copies of the permit applications. Copies of the permits themselves were provided with the filing of this appeal.

The current appeal is clearly timely. The appeal was submitted within 60 days of the final revision permit, No. B456618. This revision permit is relevant to each of the appealed zoning regulations. We are appealing full the set of permits, however. This is appropriate because the entire project was neither comprehensible nor coherent through the piecemeal process until Permit B456618 was issued.

Appeal of the set of permits is consistent with previous decisions by the D.C. Board of Zoning Adjustment and D.C. Court of Appeals. The D.C. Court of Appeals (agreeing with the BZA) determined that potential appellants are not put on notice until all permits determining the scope of work have been issued (*Sisson v. District of Columbia BZA*. 805 A.2d 964,974 (D.C. 2002). In a permitting process that substantively hampered appellants from effective appeal, the potential appellants were not put on notice until the revision permits had been issued. Mendelson v. Board of Zoning Adjustment (645 A.2d 1090 (D.C. App. 1994) found that ".. petitioners were not "chargeable with notice" of the approval of the revised building permits pertaining to the rear yard modifications until April 4, 1989" the "date DCRA approved these changes to the rear yards and issued revised building permits to Woodland." The BZA finding that the "petitioners had constructive notice of the right to appeal when construction began on lots 37 and 38 in August 1988" did not determine timeliness of filing an appeal. (pp. 1093-4) The present appeal is similar to that in *Sisson v. D.C. BZA*, supra-- in which the developer provided exceptional circumstances substantially impairing the ability of an aggrieved party to appeal. "The developer provided piecemeal applications, construction occurred before issuance of required permits; construction went beyond the scope of approved permits."

We therefore request that the Board consider the revision permits as a group and include them in the appeal or, at least, not make this decision until after the presentation of all relevant information.

B. Documentation of zoning noncompliances.

All noncompliances were documented in the Appellants' submission accompanying the original filing of this appeal (and Appeal No. 17010[1], incorporated by reference). Pictures during construction were also presented in Appeal No. 17010, incorporated by reference.

---

[1]The Board determined that the appeal which dealt with construction which was not according to approved permit plans, was premature, as no revision permits for this work had been filed. The public record for that appeal is incorporated by reference.

Supplemental information regarding appealed non-compliances is included in Exhibit B:

B.1.: The Garage Plan shows the following: the footprint has increased (which increases the gross floor space and FAR); the rear yard setback has decreased, delivery and loading facilities have decreased, a shed is added (electrical closet) in the rear yard. Sunrise made notes on the plan revised Garage Plan that are misleading to review officials. See the following examples:

(1) "Trash dumpster relocated per citizen request and approved site plan" -- for the added rear room;

(2) "PEPCO relocated transformer and elec. room per code / site plan review and approval." In fact, no new site plan was approved with any of the revision permits;

(3) "Stair deleted man. door provided for egress direct from garage & upper floor egress to grade above." These words, just quoted, resulted in the removal of the retaining wall that was originally used to raise the adjacent grade in order to be considered a cellar, not basement. However, the building is now a full story above adjacent grade across the rear yard.

(4) and "Unexcavated area" for the first floor porch which was formerly called "green space" and is now a poured concrete floor and wall, extending 10-12 feet above adjacent grade.

B.2. Sunrise's **GREEN SPACE PLAN**, shows the originally building footprint and green space.

B.3. provides a copy of the **ORIGINAL PLAT** that was provided with Permit No. B435464. It shows the building plan reviewed by the Zoning Administrator when approving the original permit. If we compare this plat and the Green Space Plan with the revised Garage

Plan, we see major differences with the revised plan. For example in their revised plan, a Loading Berth is deleted; an Electrical Closet is added in the rear yard; and the trash receptacle is relocated into an added room..

B.4. Copy of the approved **Site Plan** (Electrical). No revised Site Plan (Electrical or otherwise) was provided with any of the revision permits (contradicting what was written in a note on the revised Garage Plan).

B.5. Views of the **South Wall** (under construction). The sets of porches forming the original south wall have been deleted. The stairwell penthouse at roof level now extends out from the main south wall. There is no setback for this penthouse.

B. 6. **Extensions of the building into the Rear Yard** -- shown during construction.

C. Sunrise's history of misrepresentations during this development.

Sunrise's pattern of misrepresentations, including Sunrise expert witnesses testimony, has both (1) misled the city and (2) hampered appellants' previous and current appeal efforts. Exhibit Part C includes a list of documented misrepresentations to city officials.
We ask that the Board only give weight to statements and claims in this case that are supported by evidence.

Respectfully Submitted,

Anne Page Chiapella

ELECTRICAL SITE PLAN

SCALE: 1" = 30'-0"

Addition Extending into the Rear Yard

B6

Appendix, Part C

Example Inaccurate, Ambiguous and Misleading Materials Submitted by Sunrise

INACCURATE HEIGHT OF BUILDING:

1. On Environmental Impact Screening Form, lead architect *certified* that the building was 23'2" tall (it is over 90 ft. tall).

2. Shadow studies were done for March 21 and June 22, date of the least shadow. Sunrise reported that the building shadow would not extend beyond the alley (pp. C.2a-2b).

FACT: The building is 92-93 high above the center front curb, 105 tall from the alley side. The winter shadow blocks afternoon sunshine for many houses and yards behind the building. It also delays melting snow and ice on the alley, leading to dangerous winter driving and walking conditions in the alley.

STRUCTURAL PLAN INACCURACIES

1. Lead architect certified that the Professional Engineer on the project was a currently D.C.-licensed engineer (req. by Title 12 Building Code §107.12.1.1).

2. Complete structural plans are required.

FACTS:

1. The license of the lead professional engineer who signed/certified the structural plans expired in 8/31/1998 and was not renewed (p. C-3).

2. Foundations, piles and columns were not built according to approved plans. No structural plans were provided for additions and revisions to the building, including two rear additions to the building, several retaining walls up to 10-feet high, and a poured-in-place 7-story stairwell.

SUNRISE ATTEMPTS TO TAKE-OVER PUBLIC ALLEY:

1. Sunrise submitted a permit application that incorporated the alley stub into their property without obtaining a public space permit. After neighbors complained when

Sunrise put a fence across the alley, Sunrise met with a city official on the site and reported to him that this part of the alley was their private property.

2. The project will not significantly affect traffic and alley access to neighbors homes.

FACTS:

1. The stub is public alley. Only after neighbors persisted with the city did Sunrise take down its fence across the alley stub.

2. Sunrise developers and food delivery service vehicles have regularly parked in and blocked the alley.

POWER EFFICIENCY REQUIREMENTS CIRCUMVENTED

1. Sunrise certified compliance with model Energy Code (MEC-95) saying "*very little energy is used by the individual units. Furthermore, the individual units only allow for limited adjustment of temperature.*" (pp. C.4-5). Sunrise did not list the full set of apartment heaters/air conditioners in their application.

2. Sunrise original permit showing mechanical and electrical systems did not provide for individual heating and cooling systems for each apartment.

FACTS:

After circumventing energy efficiency regulations, Sunrise later applied and received electrical permits for 173 heaters/cooling units (pp. C.6 & C.7). Individual apartments have their own heating/cooling units and kitchenettes (refrigerator, sink provided, microwave provided by resident; stoves provided in common areas).

AMBIGUOUS AND OTHERWISE MISLEADING PLANS:

1. Sunrise is required by 12 DCMR §107.15 "Zoning Compliance Review Data" to define "without ambiguity the dimensions of said structures [in their permit application]."

2. Sunrise indicated in documentation and testimony during Appeal No. 16716 that their plans met D.C. code, including zoning code, and were rigorously evaluated by the city.

FACTS:

1. Sunrise never provided some of the required information requested by city officials. such as setback diagram for the roof penthouses, alley traffic study, and retaining wall plans. Furthermore, plans were ambiguous and self-contradictory (pp. C.8-9)

2. Plans provided to the city were highly ambiguous, nonconforming with 12 DCMR §107.15, including building and elevator penthouse footprints; elevation of the first floor of the building and location of delivery, loading and trash facilities. Location of the elevators between permits B453159 (elevator permit) and B456618 (and floor plans in other recent permits) is contradictory. Visual inspection shows that the *larger elevator is adjacent to the outside of the building*, consistent with elevator permit No. B453159. (I observed this myself during one of the events held at the Sunrise facility.)

CONSTRUCTION NONCOMPLIANT WITH PLANS

1. Sunrise testified at BZA public hearing on June 18, 2002 that they would only build according to approved plans.

2. Sunrise testified at that same meeting that Permit No. B442149 only included the elevator penthouse and specifically did not include an elevator.

FACTS:

1. Sunrise built the building with significant deviation from plans. This included deviations noncompliant with zoning regulations. Sunrise applied for revision permits only after constructing the building.

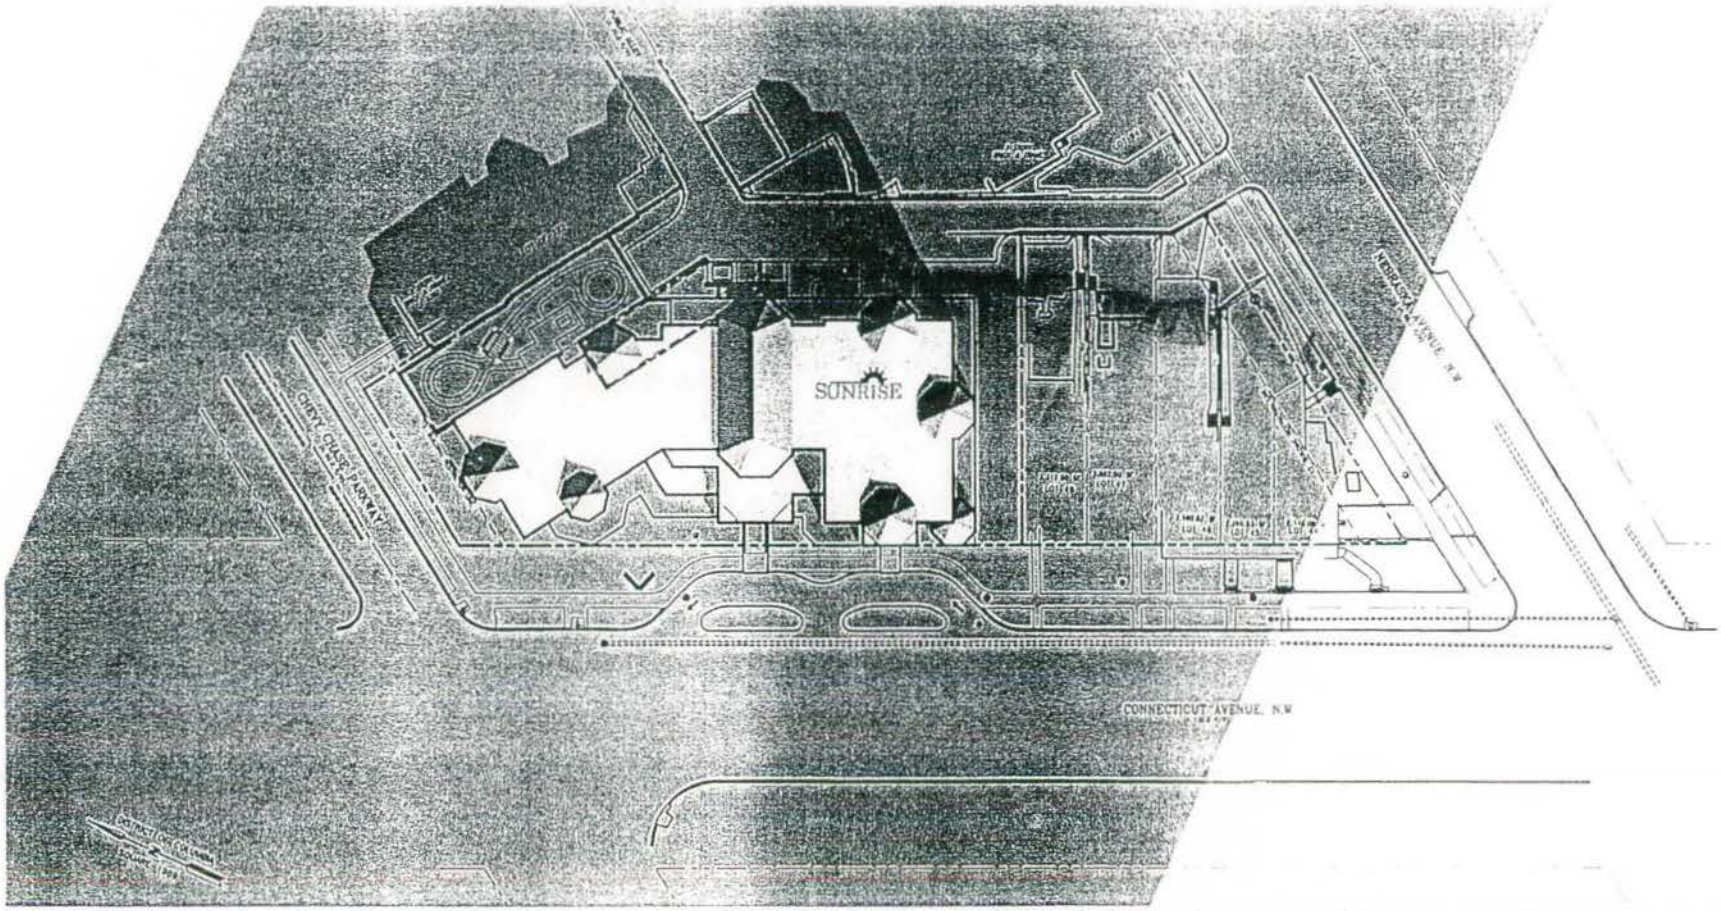

2. Sunrise testified to the BZA that Permit B442149 specifically did not include an elevator but certified to the Board of Appeals and Review that Permit B442149 included an elevator (C.10-12)

BUILDING OCCUPANCY WITHOUT A CERTIFICATE OF OCCUPANCY

FACTS:

1. With an application to construct a covered walkway to apartment models in the building, Sunrise submitted the Certificate of Occupancy for a 4-unit apartment building at 5111 Connecticut Ave., NW. Sunrise had actually razed this building.

2. Sunrise held their Grand Opening on Dec. 11, 2003 (p. C.13) and opened for opening to elderly/handicapped residents in December, 2003, without obtaining a Certificate of Occupancy for these uses.

PROJECT NAME: 5211 CONNECTICUT AVENUE, N.W.
Washington, DC
PROJECT NUMBER: 98142

Dear Mr. Ali,

The following is in response to your code letter dated 8/10/00 for Job Number 590AA.

1. Comply with structural and fire review comments, if any, and revise electrical plans as applicable.

   We have reviewed and replied to all of the structural and fire review comments.

2. Comply with Model Energy Code (MEC-95) Section 505.1 Electrical Energy Consumption, i.e., "In multi-family dwelling provisions shall be made to determine the electrical energy consumed by each tenant by separately metering individual dwelling units."

   This facility is <u>not</u> a multi-family dwelling. The vast majority of energy consumption in this facility is attributable to the common heating system and very little energy is used by the individual units. Furthermore, the individual units only allow for limited adjustment of temperature.

   This facility qualifies as transient buildings which are temporary domiciles such as motels, dormitories, health care facilities and nursing homes. This facility provides assisted living services to seniors. Assisted living services include a small living unit (approximarely 400 – 550 sq. ft.) with a private bathroom and do not have a private kitchen. Meals are provided in a common dining room and has large common areas in which patients spend the majority of their time.

C-5

3. Otherwise electrical is o.k.

Acknowledged.

Sincerely,

Steven H. Ruiz, AIA

AMBIGUOUS PLANS

Examples of ambiguous application materials are demonstrate that the zoning data is not fully and consistently defined:

I. Ambiguous elevations

First floor slab elevation varies from 303.25 to 304.15. Building under construction appears to be higher. Height of garage varies from 12.0 to 12.5 feet.

Plan Sheet	First Floor elevation	Height from Garage to Top of First Floor Slab
A201 & 202 Front & Rear Elevations	303.25 '	12.5 '
A203 South Elevation	N/A	12.5 '
A302 & A303: Building Sections	303.25 '	12.0 '
Site Improvement Plan	304.18 '	N/A
Grading Plan	304.18 '	N/A.

Note that building height and FAR will necessarily be ambiguous as well.

II. Ambiguous location or delivery and trash facilities
Ambiguous design of rear stair and patio/balcony

Plan Sheet	Location of facilities R-5 property	R-2 property	Width of Rear Patio or Balcony
Plat	X		14'
Site Plan	X		14'
Garage Plan		X	8'
First Floor Plan		X	8'

C9

AMBIGUOUS PLANS
(Continued)

III. Ambiguous elevator footprint shape

Elevator Enclosure Footprint	**SHAPE**
1. Footprint of original Otis Elevator in Permit B435464, reversed by Zoning Commission	RECTANGULAR
2. Footprint of elevator in Permit B442149 irregular shaped	IRREGULAR
3. Elevator enclosure under construction	RECTANGULAR

C-10

DISTRICT OF COLUMBIA BOARD OF APPEALS AND REVIEW

APPEAL OF NEBRASKA AVENUE NEIGHBORHOOD ASSOCIATION

RE: BUILDING PERMITS NO. B435464 and B442149 ISSUED FOR 5111 CONNECTICUT AVENUE, N.W.

DOCKET NO. BAR 02-5872-BP

PROPERTY OWNERS CROSS APPEAL AND NOTICE OF INTENTION TO INTERVENE

On behalf of Sunrise Connecticut Avenue Assisted Living, LLC (hereinafter "Sunrise"), the owner of the property located at 5111 Connecticut Avenue, N.W. (hereinafter "Subject Property"), we respectfully request that the Board of Appeals and Review (the "Board" or "BAR") deny the above-referenced appeal of the Nebraska Avenue Neighborhood Association. (hereinafter "NANA") as it was not filed in a timely manner in accordance with D.C. MUN. REGS. tit. 1 §503.2 (2002).

The building permits in dispute were issued by the Department of Consumer and Regulatory Affairs ("DCRA") on March 8, 2001, and January 22, 2002. The first permit authorized the construction of an assisted living facility (community residence facility) that provides housing for the handicapped (as that term is defined in Fair Housing Act) on the Subject Property. The second permit authorized the modification of the elevator penthouse structure and elevator system for the facility. NANA challenged each permit in two separate appeals that were filed with the District of Columbia Board of Zoning Adjustment ("BZA") claiming that the building permits did not satisfy the Zoning Regulations. The BZA denied each appeal and determined that the permits were valid.

C-11

The permits at issue have been subjected to an extraordinary level of scrutiny. The first permit was issued only after DCRA conducted an exhaustive eight-month review of the building permit application. The subsequent modification of the elevator penthouse and elevator equipment, Building Permit No. B442149, also received significant review and scrutiny by DCRA. This appeal is merely another attempt by NANA to prevent this project from being constructed.

NANA's appeal of the original building permit and subsequent modification permit does not satisfy the requirements of D.C. MUN. REGS. tit. 1 §503.2 (2002). That section requires that

> An aggrieved person, owner of property, or licensee shall file the notice of appeal with the Board within fifteen (15) days after service of the notice of the act, decision, or order with respect to which the appeal is filed.

The original building permit was issued on March 8, 2001. NANA was obviously aware of the issuance of the building permit, since it filed an appeal with the BZA on March 16, 2001. Similarly, NANA filed another appeal with the BZA on March 19 and 20, 2002, this time contesting the validity of the modification permit which was issued on January 22, 2002. Therefore, NANA has failed to satisfy the statutory requirements of D.C. MUN. REGS. tit. 1 §503.2 (2002). NANA should not be allowed to obtain a waiver of this requirement. NANA was fully aware of the issuance of the building permit and modification permit. Sunrise is the party that will be adversely affected if the Board allows the appeal to be heard. The Board should follow its enumerated regulations and not condone NANA's continued harassment of Sunrise.

Sunrise, as the property owner and party in interest, also hereby requests the opportunity allowed to participate in the Board's appeal process. Sunrise will be able to provide relevant

C-12

information to the Board as necessary throughout the process and assist DCRA in its defense of the validly issued building permits.

This appeal was mailed to Sunrise on July 19, 2002, thus, this cross appeal is filed in accordance with D.C. MUN. REGS. tit. 1 §§501.5 and 503.4 (2002).

CONCLUSION

The Board should dismiss NANA's appeal because it was not filed in a timely manner, nor does it have any substance or merit. Additionally, the Board should grant Sunrise, as the property owner and building permit holder, the ability to participate in this hearing process.

Respectfully submitted,

Allison C. Prince

SUNRISE
ASSISTED LIVING®
CONNECTICUT AVENUE

C13

Dear Neighbors:

As many of you know, the Grand Opening takes place this evening, Thursday, December 11, 2003. We will celebrate the opening of Sunrise Assisted Living on Connecticut Avenue.

We have taken all necessary precautions to make sure that safety measures are in place and we have worked carefully to ensure that parking issues are handled properly, including keeping the alley clear.
Thank you for your patience.

We would like to extend a special invitation to all of you to join us for a Neighbor Open House in January 2004. At that time, you will have the opportunity for a private viewing of our beautiful community.
Formal invitations will follow soon.

Sincerely,

Tanya A. Walker
