Dear Neysa and Jim:

Just a note to confirm that we have no objections to the garage that you plan to build behind your house.

You have always been very considerate and responsible neighbors, and we are confident that both the building process and the final product will reflect your ongoing respect for your neighbors and neighborhood.

We will check in with you next year and – if you are enjoying your garage – we may decide to do something similar.

In the meantime, best wishes.

Sincerely,

Mary Fraker

Jim Graber
