National Trust for
Historic Preservation
1785 Massachusetts Ave., N. W.
Washington, D. C. 20036

Dear Tom:

The National Trust for Historic Preservation ("National Trust") holds a Scenic Open Space and Architectural Façade Easement on my home. I donated the easement to The Foundation for the Preservation of Historic Georgetown ("The Foundation"), which in turn donated the easement to the National Trust in 1975. At the time The Foundation for the Preservation of Historic Georgetown was a feeder organization for easements to be donated to the National Trust but the National Trust asked to discontinue this arrangement after The Foundation donated 5 easements to the National Trust.

I am handicapped with Multiple Sclerosis and need to make changes to our home to accommodate my illness. I have extreme difficulty dealing with steps. We have hired the firm of Rixey-Rixey Architects to design changes so I will have access to the second and third floors without having to use steps. Currently I can only use the 2nd floor of the modern addition, which has a one-story elevator,.

We respectfully request your approval of the second floor changes in the enclosed plans dated June 3, 2003, which enclose a second floor terrace. to provide a ramp to allow access from the modern additions second floor to the rest of the house. Please refer any questions to Douglas Rixey at TEL: 202.333.2626. My wife, Barbara and I can be reached at 202-333-7497.

Sincerely,

Chisl Langhorne

Cc: Douglas Rixey
