Bonstra Architects PC

COMPANY PROFILE
Resume

William J. Bonstra, AIA
Principal

Background & Experience:
Mr. Bonstra has been practicing architecture for more than 20 years, specializing in the design of large-scale commercial and multi-family residential projects in the Washington, DC area. Prior to founding **Bonstra Architects PC**, Mr. Bonstra was associated with such notable Washington architectural firms as Shalom Baranes Associates, Keyes Condon and Florance, and Hickok Warner Architects. With these firms, he has been involved in several award-winning projects including the base building design of a 12-story office tower at *816 Connecticut Avenue, NW*, the renovation and facade replacement for the Headquarters of the *American Chemical Society*, and the 25,000-person *Nissan Pavilion at Stone Ridge*. As principal of **Bonstra Architects PC**, he has been involved in the implementation of notable commercial, multi-family residential, and institutional projects throughout the DC area.
