To whom it may concern:

My wife and I live next door to Louise & Ben Goddard. We have owned our home since 1978. Our house shares a wall and we are on the west side of their house. We can see into each other's back yards from our respective porches.

I have discussed with them the addition they are planning, and have seen the drawings and reviewed their proposed plans to enclose a portion of the existing screen porch and enlarge their kitchen.

We are in favor of their proposed remodel. It is tasteful and in character with the neighborhood and the alley. There would be no adverse effect on our home or backyard – no loss of light or view. In fact it would give us both more privacy.

I think it will enhance the neighborhood and am looking forward to its completion.
Please do not hesitate to contact me.

Thank you,

Grafton T. Biglow
