Re: Application Number 17209
Parkmont School

Dear Ms. Kress:

We are writing this letter to support the Parkmont School in their request for a renewal of the variance and special exception for a 5-year term and an expansion of the variance and special exception to allow for 12 faculty members. Our family has lived in the area of the school for over 20 years. Parkmont School is not only an asset to our neighborhood but also to the Washington Community.

We are familiar with several private schools in the Washington, DC community and believe that Parkmont plays a valuable role in the education and development of its students into responsible members of society. Parkmont is a school that serves all ethnic and socioeconomic populations in the Washington, DC community.

We hope that you will strongly consider and grant Parkmont's requests.

Sincerely,
Melvin + Toni Baker
Melvin and Toni Baker
