To Whom It May Concern:

The Covenant Full Potential Development Center is writing to convey our support for construction of a family/community center on the ground at St. Thomas More. The center would provide a badly needed facility for youth and families in an under-served city neighborhood. Our organization is a faith based non-profit organization that provides preschool education and out-of-school time activities for youth in this same community and would wholeheartedly support this facility. Quality activities for children and families support the quality of life in neighborhoods.
The center would be managed by Victory Youth Centers, Inc., governed by a board of directors from the community around St. Thomas More. Victory Youth Centers, Inc. would assume full responsibility for operating expenses.

Activities at the center would bring families in the community together, and engage neighborhood youth in constructive sports and development activities. We pledge our support for families and community by supporting the family/community center on the grounds of St. Thomas More.

Sincerely,

Phyllis A. Tyndell
