Detail Statement

I would like permission to be released from the side yard requirement. My parents are currently residing in Wheaton Maryland. My father is 82 yrs. Young and my mother is 77 yrs. Young. They are experiencing health problems. I have two sons who are currently attending college out of state (both will be returning home upon completion) and my oldest brother is currently living with me. I need this additional space because of my family expanding in addition to the anticipation of them both moving in with me.

Due to the escalating cost of purchasing a new home, adding three additional rooms is less costly then moving.
