RE: APPLICATION NUMBER 17260

We refer to the above captioned application in respect of 2224 R. Street, LLC for a special exception to establish a 10-room occupation and to allow more than 8 clients/customers on the premises in any one hour.

The embassy wishes to register its objection to this development as the property is located very close to the embassy and the proposed project, if allowed to proceed, will pose a security threat.
