Dear Potential Partner:

Thank you for your interest in the DGYLF and supporting a YLLC in your community. The DGYLF mission is to help children develop into leaders who positively influence their families and communities. We achieve our mission through our Learning Centers by providing services that nurture the child, strengthen the family, and rebuild the community.

Although the larger part of our program is administered after school, we are much more than just an after-school program. The YLLC is a comprehensive, holistic learning environment that includes academic enrichment and supplemental services, discipleship, mentoring and character development. We literally get involved in the lives of the families and communities whose children we serve.

The YLLC accepts new students into the program between the ages of 5-11. Once enrolled, these children become part of the YLLC family and because of our long-term commitment they stay in the program through the course of the K-12 careers and into college. Although our program targets youth, we also provide services to the parents and other adults within the community that have an impact on the lives of the children. Adults in the program have access to classes and programs that are developed around the needs of the community.

Supporting a YLLC in your community provides countless benefits that ultimately create a community of character: your residents recognize that you are committed to the uplifting of their community; a cleaner, safer and healthier living and working environment; respectful and bright children; and a personal feeling of gratification knowing that you're making a commitment to impact the lives of the children that reside in your community.

Thank you again for your interest in the DGYLF. We look forward to a long, beneficial partnership that impacts the whole child and ultimately changing their lives.

Sincerely,

JC Sherrod
President & Executive Director

Tasha Tillman, MA
