FRIENDS OF WHITEHAVEN
SUPPLEMENTARY SUBMISSION
TO THE BOARD OF ZONING ADJUSTMENT (BZA)

REGARDING SPECIAL EXCEPTION APPLICATION #17276
2101 FOXHALL ROAD, NW (SQUARE 1346, LOT 822),
OTHERWISE KNOWN AS THE "PHILLIPS PROPERTY"

MARCH 28, 2005

RECEIVED
D.C. OFFICE OF ZONING
2005 MAR 29 AM 9:14

** ADDENDUM CLARIFICATION **

Although the applicant has not demonstrated, with expert evidence or otherwise, that the so-called "eastern" wetland on the Phillips property is "artificial" or "manmade," Friends of Whitehaven wants to be abundantly clear that the wetlands and stream complex discussed by Julie Moore in her expert declaration, and supported on some level by the D.C. Department of Health, is known as the "western wetlands." The eastern wetlands, in other words, is a third wetlands complex on the Phillips property.

These natural western wetlands, fed by a perennial stream, are distinct from the so-called eastern wetlands, as well as the already identified U.S. Army Corps "southern" wetlands, and are clearly ***not*** "artificial" or "manmade." See, e.g., Appendix B of Kent Slowinski's March 8, 2005 testimony (wetlands map).

This addendum clarification will be served on all parties together with, and in an identical manner as, the supplemental submission.
