Board of Zoning Adjustment
District of Columbia
CASE NO. 17276
EXHIBIT NO. 73

The BZA has consistently relied upon the Department of Health to review and stipulate additional environmental protection of waters of the District of Columbia as the board of Health determines appropriate and necessary at the time of consideration and issuance of permits for ultimate construction of BZA approved development. The protection of natural water flows that may exist in the vicinity of the referenced 3 acre area will be evaluated at the time any clearing or construction permits are applied for. The BZA appropriately relies upon the applicable District Agencies to follow their legally required responsibilities.
