

**ALLEN EDWARD NEYMAN, AIA, PRESIDENT PRINCIPAL IN CHARGE**

holds a Bachelor of Architecture from the Pennsylvania State University. He had been in charge of the design room for Horowitz-Neyman and Associates, Inc., for ten years, gaining the title of Director of Design. As founder and Principal, Mr. Neyman currently serves as Vice-President and Treasurer of **NSA**Architects a design corporation.

Mr. Neyman has a broad range of professional and managerial experience. He worked as an intern in the Frank Lloyd Wright studio, Los Angeles, California, under Lloyd and Eric Wright. He was employed by the Lackawanna County Regional Planning Commission from 1972-76. His work there included master planning for projects such as Montage (ski resort, civic arena, etc.) and the revitalization of center city Scranton, Pennsylvania. With Pyros + Sanderson, Wilkes Barre, Pennsylvania, 1976-81 he worked as an architectural designer of commercial projects (office buildings, banks) institutional projects (ecclesiastical buildings, educational buildings, hospital) and as an interior architect. His master planning efforts earned an award of merit from the American Institute of Certified Planners for the Wilkes College Space Utilization and Master Plan. With Astore Architects in Bethesda, Maryland, Mr. Neyman worked on military master planning in the United States and Europe.

His professional accreditation includes the District of Columbia, Pennsylvania, Maryland, Virginia, Delaware, New Jersey and West Virginia.

Starting in 1983, Mr. Neyman managed design and production for Horowitz-Seigel and Associates, Inc. Later, the firm became Horowitz-Neyman and Associates. He continued in a public and residential architectural practice involving design of new buildings and renovations - residential of all types, retail centers, office centers, and institutional buildings, until a firm merger with JSArchitects to form **NSA**Architects in 1999. A principal of the new firm, he has served as President and Vice-President, as has lead in established venues and in finding new directions. Residential work for **NSA** has included significant residences and multi-family projects in the metropolitan area. He continues work in residential, commercial, mixed use, and institutional venues, from conceptual planning to construction, projects small and large, from \$100,000 to \$30 million in scope.

Mr. Neyman's varied experience includes numerous projects as consultant to develop master plans, site plans, feasibility studies, space utilization plans, and concept plans for institutions, government and the private sector.

Residing in Rockville, Maryland, Allen is married to Karen R. Lefkowitz, a General Manager, System Operations and Restoration for PEPCO, and has a son, Neil, also of Rockville, a computer programming specialist. He has been active in the Greater Silver Spring Chamber of Commerce, Vice President and Board Member of The Upper Glen Community Association, formerly Secretary of the Great Pines Community Association. He had been active for several years as adult leader with The Boy Scouts of America, and is a USTA/MATA rated tennis player. Mr. Neyman has been a member of the Montgomery County Sign Review Board for nine years, and was Chairman for three of those years. He is a director, heads the Governmental Affairs Committee and is a past President of the American Institute of Architects, Potomac Valley Chapter. In 2006, Allen serves as President of the American Institute of Architects Maryland, headquartered in Annapolis, MD. Allen also volunteers with the Montgomery County Habitat for Humanity on its construction committee.
