RE: BZA Case No. 17334
Rothfeld-Day Residence
4540 Butterworth St. NW
Washington DC 20016
ANC3E

Dear Ms. Kress and Mr. Nero:

This letter confirms that ANC3E supports the application of the BZA Case number 17334, the Rothfeld-Day Residence (hereafter known as the Applicants). This ANC finds exceptional merit in their proposed addition for the following reasons:

- The addition adds greatly to the aesthetics and the overall home values of the neighborhood while not being unduly large and out-of-character with the neighborhood;
- The Applicants have the full support of their surrounding neighbors, going so far as to modify the design of their addition to accommodate their neighbors; and
- The Applicants have a clear need to enlarge their home because of an addition to their family;

During a public meeting on Thursday May 12, 2005, with a quorum present, ANC3E voted unanimously (5-0) to support the Applicants' request. If you have any questions, please feel free to use the contact information listed below.

Very Respectfully,

Amy Hoang Wrona
Commissioner
