Ms. Kress:

I am writing in support of **Application Number 17365** for Kevin West at 1535 A St SE.

The rear two-story addition he is proposing will increase the value of his house and help to increase the value of other houses near by, including my house. It won't have any negative impact on the neighborhood in general or on my property in particular, as he is proposing to make his house only as big as the houses adjacent to his, and no bigger.

I fully support Mr. West's application for a variance to build a rear two-story addition and I ask that you approve his application.

Sincerely,

Kristy Brown
