Re: Support for The Lab School of Washington – BZA Application No. 17383

Dear Members of the Board:

The purpose of this letter is to express my strong support for The Lab School's application to maintain its current level of students and faculty and not reduce the students to 310, install a sidewalk on Whitehaven Parkway and parking spaces for the benefit of the community. I believe that The Lab School of Washington is a vital resource for Washington, DC, our Palisades community and that it should be encouraged to provide learning disabled students with the individual attention that is so important to their education.

As a homeowner in the immediate vicinity of The Lab School, I fully support the proposed application. I believe that the proposed parking spaces and maintaining the faculty and student numbers will not adversely affect the Palisades community. I also feel confident that The Lab School will be a conscientious neighbor and will work to resolve any concerns of the neighboring property owners.

For these reasons, I support The Lab School's application to the BZA and I hope that you approve Application No. 17383.

Sincerely,

Leila Kramer

BOARD OF ZONING ADJUSTMENT

To Whom It May Concern:

As the Coordinator of Swim School Operations for the Curl-Burke Swim Club, we have utilized the pool facilities at the Lab School of Washington for the past couple (6) years. We primarily use the facility for our waterbabies and beginning swim programs. As our swimmers are in the age range of 6 months to 5 years, safe and convenient parking definitely has been a great attribute for our programs. Any endeavors to better serve the neighborhood, as well as extended Lab School of Washington family are supported by our organization.

Thank you,

Laura Ritter
Curl-Burke Swim School Coordinator
