DC Board of Zoning Adjustment
441 4th Street, N.W.
Second Floor
Washington, DC 20001
Attn: Geoffrey Griffis, Chairman

Dear Members of the Board:

My family and I reside at 4725 Ashby Street, NW, which is in very close proximity to The Lab School of Washington. I am writing to express our full support of Lab School's application (No.17383) for a student and faculty/staff increase and to construct angled parking spaces and a sidewalk along Whitehaven Parkway, NW.

Lab School is a valuable educational resource for the entire city; the student/faculty/staff increase benefits the children and families who need the school most. The new sidewalk and parking spaces are a safe, attractive solution to current pedestrian and parking problems on Whitehaven Parkway.

I urge the BZA to approve Application No. 17383.

Respectfully,

Bryan Ross

BZA
