Re: Support for BZA Application No. 17383 – The Lab School

Dear Members of the Board:

I am a neighbor of The Lab School and long time resident.

I am writing to express my support for the School's application to increase its enrollment to 330, to increase its faculty/staff cap to 182, and to install 50 parking spaces in the public space along Whitehaven Parkway. It is my understanding that the BZA will hold a hearing on the application on November 22, 2005. Given my proximity to the School and the proposed parking, my residence is directly affected by the application. My family and I take many walks in the neighborhood and around The Lab School.

I have consistently found The Lab School to be a good neighbor and the School provides many benefits to the community. The parking spaces and new sidewalk will be great conveniences to the neighborhood, since they will provide night and weekend parking for nearby institutions, embassies, visitors and residents. The parking spaces will relieve much of the parking burden on the surrounding neighborhood, while the new sidewalk will increase pedestrian safety.

My husband and I support The Lab School's application to the BZA and I hope that you approve Application No. 17383.

Respectfully,

Dorothea L Slater

Re: Support for BZA Application No. 17383 – The Lab School

Dear Members of the Board:

We are neighbors of The Lab School. We have resided at 4505 Foxhall Crescent NW for three years.

It has come to our attention and I am writing to express my support for the School's application to increase its enrollment to 330, to increase its faculty/staff cap to 182, and to install 50 parking spaces in the public space along Whitehaven Parkway. It is my understanding that the BZA will hold a hearing on the application on November 22, 2005. Given my proximity to the School and the proposed parking, my residence is directly affected by the application.

My family and I take many walks in the neighborhood and around The Lab School. . The students are well-behaved and do not cause objectionable impacts in the community.

We have consistently found The Lab School to be a good neighbor and the School provides many benefits to the community. Neighbors particularly enjoy the Community Swim program. The parking spaces and new sidewalk will be great conveniences to the neighborhood, since they will provide night and weekend parking for nearby institutions and residents. The parking spaces will relieve much of the parking burden on the surrounding neighborhood, while the new sidewalk will increase pedestrian safety.

For these reasons, we support The Lab School's application to the BZA and we hope that you approve Application No. 17383.

Respectfully,

Antonio Monteiro and Natalia Luis
