To Whom It May Concern:

I am the owner of the row house at 2817 Ordway Street, N.W., Washington, DC. My neighbors, Christina and Patrick Cusack, of 2815 Ordway Street NW, have notified me that they hope to build a deck in their backyard, which abuts my property. They have shared the attached architectural drawings with me, which I have reviewed.

I feel that the construction of their backyard deck will be a positive addition to our neighborhood. It will provide a more residential feel than currently exists due to the strip of commercial properties with dumpsters, large fans, and an excess of concrete.

I support their plans for the deck, and hope that the appropriate entities with jurisdiction will grant the required approvals to their plans and any variances they may require.

All the best,

Francis J. Rienzo
