Re: BZA Appeal #17615 (the "Appeal"): ANC 2E letter

Dear Chairman and Members of the Board:

On behalf of Washington Harbour Condominium Unit Owners' Association, Inc. (the "Association"), we are writing in response to the letter from Mr. Ed Solomon, ANC 2E Chair dated June 28, 2007. While the Association respects the general authority of ANC 2E to express issues or concerns on matters before the BZA, the Association strongly believes that in this instance, ANC 2E did **not** consider the issues raised by the current Appeal or their broader neighborhood and district-wide implications at a regularly scheduled meeting, or otherwise, and did not engage in open and transparent communication with the Association regarding this Appeal.

First, the actions taken by ANC 2E on October 3, 2006, as conveyed to the BZA by letter dated October 6, 2006, were in relation to a different matter before the BZA, namely Case No. 17317, which was the Association's appeal of the original Notice of Violation for the parking garage. Prior to the BZA hearing on the Association's appeal, the Zoning Administrator rescinded the underlying violation and the Association withdrew its appeal. Subsequently, the Association applied for and obtained a building permit, as directed by the Zoning Administrator, from which the current Appeal (Case No. 17615) was taken.

As a matter of course, ANC 2E had notice of the Appeal and had every opportunity to review and take action on the Appeal in an open and public forum and submit comments to the BZA in a timely fashion before the June 5, 2007 hearing on the Appeal, and chose **not** to do so.¹ In fact, in conversations with ANC 2E Commissioner Starrels, the Association was *expressly* informed that

¹ ANC 2E agendas for every meeting since the Appeal was filed, including a meeting since the June 5, 2007 hearing on the Appeal, are attached hereto as Exhibit 1. ANC 2E meetings were held on January 30, 2007, February 27, 2007, April 3, 2007, May 1, 2007, June 5, 2007 and July 3, 2007, and the Appeal was never on an agenda, nor did ANC 2E contact the Association to request any information or materials relative to the Appeal.

ANC 2E intentionally would not be taking action with respect to the Appeal and would be allowing the BZA to determine the relevant issues without input from ANC 2E. Not only did the Association rely on this conversation, but it also relied on its continuous monitoring of ANC 2E's agenda to see if the Appeal would be reviewed and discussed by ANC 2E in an open forum. Had ANC 2E opted to consider the Appeal in such a forum, the Association would have had the opportunity to present the developments and status of the matter since October 2006 and to discuss the legal and policy implications of the Appeal. However, the Association never was afforded such an opportunity, either formally or informally, despite its diligent efforts to look for such an opportunity.

Second, the June 28, 2007 letter from Mr. Solomon, as with the October 3, 2006 meeting of ANC 2E, is strikingly absent of any substantive consideration, evaluation or discussion of the issues involved with the Appeal. ANC 2E simply states that it "supports the Appellant", but does not indicate why or evidence an appreciation for the neighborhood or district-wide implications of the issues presented. Similarly, at the October 3, 2006 ANC 2E meeting, the Association was informed that ANC 2E did not wish to hear a thorough explanation of the legal issues involved before it unexpectedly took the action it did at that meeting to support Mr. Harnett. The Association believes that in this matter, ANC 2E has not carefully considered the issues and their letter should be dismissed or only afforded "great weight" by acknowledging it and disposing of it with a substantive explanation of the findings and conclusions that the BZA makes on the Appeal.

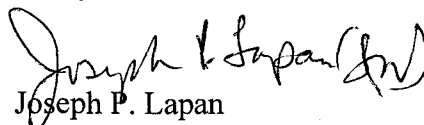

For the reasons stated above, the Association respectfully requests that the BZA decline to consider ANC 2E's June 28, 2007 letter as part of its deliberations on the Appeal or, in the alternative, that the BZA dispose of ANC 2E's comments by acknowledging them and providing a substantive explanation of why they are insufficient.

Sincerely,

LINOWES AND BLOCHER LLP

Emily J. Vaia
