Re: BZA Application for a rear egress stairs at 1107 Penn Street NE

Due to an error for DCRA zoning the current referral letter references an incorrect relief to be sought. As a result the notification signage displays the incorrect relief sought and cannot be displayed. We are requesting a postponement of the scheduled hearing to a later date to resolve this issue.

In addition, although the ANC 5D commission has voted to grant approval of the proposed relief, the formal letter of approval has not been received to date. Additional time will be needed to acquire the letter.

Thank you,
