Hi David,

The addition of the window on the South façade is fine with us.

We will not, however, approve the lowering of the windows on the East facade.

Please be in touch if you would like to discuss further.

Best,

Kate

Kate,

The OP wants to explore adding a window where the existing dining room is on the 2nd level floor plan attached. Again, this would be justification for them to deny our request for zoning relief for the addition and would result in a single window in the middle of the south wall façade. Lenfant has already supported adding a window towards the end of the property next to where the addition would go if approved.

I look forward to discussing this on Tuesday morning as well. As with the other request, please let me know if you need anything else or have any questions.

Thank you again and have a great weekend!

Sincerely,

David
