1100 4th St SW

Washington, DC 20024

To Whom It May Concern:

I understand that construction is proposed for 1234 Duncan Pl. NE, owned by James Hunter, to add an additional floor to the existing home. I understand that my existing operational flues for gas-fired equipment will need to be extended in height in order to comply with building code. I consent to the extension of my flues located in my dogleg at the expense of James Hunter as part of the construction of the project at 1234 Duncan Pl. NE. Furthermore, I acknowledge that 1) the two brick chimneys located on the party wall have been abandoned and therefore do not require extension because the fireplaces below have been removed and 2) the brick chimney located in my dogleg does not require extension because it has been abandoned in favor of the flue running up the exterior of the wall in the dogleg.

Sincerely,

Signature:
