Date: JUNE 12, 2017

Statement of Public Outreach

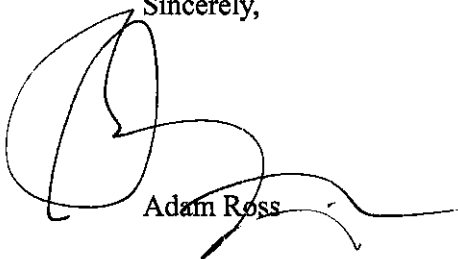

We are writing in regards to the planned renovation project at our home located at 1739 Harvard Street NW.

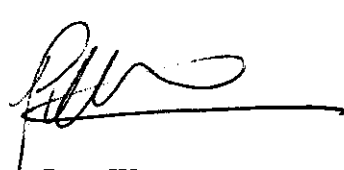

In anticipation of the project starting later this year, we have reached out to our immediate neighbors and ANC 1D representatives to outline the project and address any issues or concerns. In addition, we are in process of scheduling a meeting with Stuart Karaffa, our ANC 1D-5 representative, to get his input into any issues that would affect the blocks around our home.

On June 6th , 2017, our architects reached out to the DC Office of Planning, specifically Mr. Stephen Mordfin, and discussed the project and its general scope via email.

Upon submission and acceptance of the BZA application we intend to contact our ANC 1D representatives to provide notice of hearing date and copies of submitted applications as necessary. If required, we will also contact the Office of Zoning, Preservation & Planning. We anticipate attending the monthly ANC 1D meeting scheduled in mid-June to make a formal notification of our project, and with our architects' assistance will have supporting documents for additional insight.

Sincerely,

Adam Ross
