Hi Eric,

I hope you had a good weekend and got a chance to enjoy the lovely weather.

At the last ANC meeting, the resolution was for the neighbors to keep talking. We have not had a chance to speak to you further. We had assumed that you might be at the meeting that Jeremy was organizing last weekend, but scheduling conflicts among different people unfortunately prevented the meeting from happening.

We have listened to and considered your objections to the project. In the spirit of compromise, we are willing to scale back to 11 ft on top and 13 ft on the bottom (as opposed to 12/14). This offer contingent upon you dropping your opposition in the BZA proceeding. We understand you are currently planning to testify as a witness for Bryan and Susanne. We have made the same offer to Bryan and Suzanne. We think this is a fair offer because, for the top level, there is not much room for compromise between 10 feet and 12 feet; the middle ground is 11 feet, which is our offer.

Please let us know what you think. We are also available to discuss further in person if you wish.

Best regards,

Peng Wu and Adam Ross
