MEMORANDUM

TO: District of Columbia Board of Zoning Adjustment

FROM: Jamie Henson
Systems Planning Manager 

DATE: October 13, 2017

SUBJECT: **BZA Case No. 19593** – 1226 North Carolina Avenue NE

APPLICATION

Edward and Naomi Griffin (the “Applicant”), pursuant to Title 11 (2016 Zoning Regulations) of the District of Columbia Municipal Regulations (DCMR), Subtitle X, Chapter 9, requests an area variance from the nonconforming structure requirements of Subtitle C § 202.2, to enclose a rear, third floor deck in an existing one-family dwelling. There are currently no vehicle parking spaces provided on-site. The Applicant is not proposing to change the number of units or add vehicle parking spaces with this application. The site is located in the RF-1 zone at 1226 North Carolina Avenue NE (Square 1012, Lot 122).

RECOMMENDATION

The District Department of Transportation (DDOT) has reviewed the Applicant’s request and determined that based on the information provided, this proposed action will have no adverse impacts on the travel conditions of the District’s transportation network. DDOT has no objection to the approval of the requested variance.

Public Space

This review only pertains to zoning issues and does not consider potential impacts to District owned public space. DDOT’s lack of objection to the requested variance should not be viewed as an approval of public space elements. If any portion of the project has elements in the public space requiring approval, the Applicant is required to pursue a public space permit through DDOT’s permitting process. The Applicant may refer to Titles 11, 12A, and 24 of the DCMR and DDOT’s recently released 2017 Design and Engineering Manual (DEM) for specific controls of public space. A summary can also be found in DDOT’s Public Realm Design Manual.
