RE: BZA Application No. 19593: Request for Continuance

Comes now, Charlene Patton, by and through counsel, and states: she has applied for party status today in the above-styled BZA application.

In addition to seeking party status, Mrs. Patton is seeking a continuance from the December 13, 2017 hearing to January 17th or 24th at 9:30am in order to allow time for further scientific studies, to allow counsel time to review the current case, relevant laws and judicial decisions and to explore possible settlement options. Although not currently available, it is anticipated that results from scientific studies will support Mrs. Patton's request for party status and support her opposition to the application.

Please contact me at 703.785.9864 and or denise@robertweed.com with questions and with your decision regarding this request for continuance.

Thank you for your consideration.
