Nick,

I'm sending you this email with the purpose of documenting for the record that we contacted you January 4<sup>th</sup> 2018 to notify you that our request for zoning relief for BZA case no. 19655 as it pertains to Subtitle C, Section 202.2 (addition to a nonconforming structure) is actually a variance rather than a special exception. The design of the proposed addition did not change, only the nature of the relief requested. On January 8<sup>th</sup> 2018 we shared our supplemental filing explaining the change. At that point we were informed by the ANC that we did not need to attend the January ANC meetings to further explain the proposed project.

Thanks,  
Mike
