Thank you.

I am in favor of the Sherman Park area neighborhood Traffic Improvement with the reclassification of State Medical Hospital to SMH application for zoning. Also, I am in the B/C

I am concerned that the use of the building at 2108 Bancroft PL NW is disruptive to the residential character of the neighborhood and will be a detriment to the neighborhood in the long run. The neighborhood also will be a detriment to the neighborhood in the long run because of the other buildings in the neighborhood. Further, I am concerned that the use will disturb the quality of the neighborhood and be a detriment to the neighborhood in the long run.

Thank you very much for your attention.
