RE: BZA Application for 1209 Park Road NW, Case No. 19666

To Whom It May Concern:

I reside very close to 1209 Park Road NW, DC. I have reviewed the plans for the proposed addition to the rear garage. I am also aware that special exception relief from the Board of Zoning Adjustment is needed to proceed with construction.

I offer my full support for the proposed project that will retain design elements of the existing structure and will not impact the adjacent properties or the alley. I do not foresee any issue with the plan to increase the residential space in our thriving neighborhood.

I support this project.

Sincerely,
