Dear OSSE,

To the office of Zoning I was referred to MSTC by my cousin her children was previously enrolled in 2009. I then enrolled my child in MSTC January 2017 since then my experience has been great the location is great overall far as transportation and the community. The curriculum is great my child is developing well. MSTC has now upgraded and have their children on Brightwheel so that the parents can communicate with the teachers and so that we can see what's going on doing the day with their everyday activities. I will recommend MSTC to everyone in the neighborhood. Ms. Manley also is a very resourceful person. I will began UDC in the fall pursuing an Associates in ECE. All thanks to Ms. Manley. A clean quality learning environment is what this community really needed. MSTC is reliable doors are open on time every day and I can trust them with my son.

Warm regards,

Glasshebar J. Jones
