

Date 1/20/18

To Whom it may concern,

I have received from Richard and Linda Hall a description of their plans for a bay window on the outside wall of their planned second-story rear bedroom. I understand that because the bay window encroaches 1 foot, 6 inches into the rear yard area at the second story height, it requires an exception to zoning rules for rear yard space. I support their request for that exception, which is contained in BZA Application #19698.

Sincerely,

Name Robert Sandeman

Address 1957 39th St NW
