STATEMENT OF PUBLIC OUTREACH - SPECIAL EXCEPTION APPLICATION

Dear Board of Zoning Adjustment (BZA),

I provided Notice of Intent with relevant information about the scope of the proposed addition to my home to Advisory Neighborhood Commission 5A via 5A02 Commissioner Grace Lewis, on May 12, 2018. I have been in contact with Commissioner Lewis regarding my proposed addition since meeting her at the April 25, 2018 ANC meeting and she has been very helpful in explaining the process of seeking the ANC support of my project. She also suggested that I reach out to my neighbors and seek their support as well.

I had verbal conversation with several neighbors about my project and on June 5th I mailed out a information package that provided them with information on the proposed addition and asked for their support of my special exception application. My neighbors were instructed to send their comments directly to ANC Commissioner Lewis.

I also plan to provide an electronic copy of my application and all accompanying documents to the Office of Planning and ANC 5A upon completion of the online application process.

Respectively submitted,

Anthony D. Jackson
