Hi Stephanie! I'd be more than happy to support your plan. I'm pretty busy right now but if you need me to sign a letter of support or something like that, please send me a draft and I'll be more than happy to sign it.

Best,

Ezequiel (619 i St)

Hi Stephanie and Peter,

Have not seen you guys for a long time. Heard you were away too. You do have my vote to go for the height as you age gracefully.. Take care.

I absolutely think you should appear. I think it would also be good for as many of us as possible who live in the cul-de-sac to attend. Rugerio (sp?) and your 6th Street neighbor should appear. Tony Schooler will appear and Josh. I will appear. Mary will appear, if her schedule permits and others. We should convey the message that ours is a close, diverse, intergenerational neighborhood. We just welcomed Logan Nightengale, the newest member of our neighborhood. And we recently sent Rugerio's Aunt to join the other ancestors. I (Lezli) work indefatigably with MPD to make certain that the only point of ingress and egress into the cul-de-sac is free of debris, snow, ice, and that illegally parked cars are removed to make sure that both children and seniors can safely walk into and out of the cul-de-sac. Yours (The Eicher's home) has become the neighborhood center where many of us go to receive or share important information about neighborhood and City goings on. We want you to have whatever it takes to age in place for your benefit and for the benefit that the elevator will provide for others of us in the community who want to remain connected at the *de facto* neighborhood center, and would have an easier time remaining connected with the elevator.

There is a great story to tell not only about how the elevator will allow you to age in place, but also about model intergenerational community building, during this time of great transformation in Southwest and especially at The Wharf.
