Re: Notice of Unavailability for March 27 meeting

Counsel objects to Mid-City's unilateral scheduling of advanced party status consideration. This request is one that can be made by those requesting party status but only if the request for advanced party status consideration is made 30 days prior to the hearing. Clearly, this is not the case as it is only 12 days until hearing and BCGG has not made that request. BCGG wishes for their party status request to be held the day of the April 3, 2019 hearing so they may have time to prepare testimonies. Furthermore, counsel has a previous commitment and will be on a panel regarding gentrification at the time of the upcoming public meeting.

Respectfully Submitted,

Aristotle Theresa
