

Here is a picture of 2431 Girard St. NE, The former home of Ethel Taylor. On the left of the house was her driveway, to the right of her home was her yard.

Here is a picture of Mrs. Taylor's home now. This is from a more left angle so that you can clearly see, PAR0155 Lot 0007 Zone R-1-B. District Properties came and demolished the driveway to blight it. They have submitted no plan to build on it yet, so why would they do this?

Here is a picture of houses that developers have built in Ward 7, three feet apart from each other.

District Properties wants to do this now in Ward 5, eradiacting yards, a key characteristic of Langdon Park "Bungalows and Big Yards."
