Re: Request to Postpone the Hearing; BZA Case No. 20065

Dear Members of the Board:

I am writing on behalf of the Applicant in the above-referenced case to request a postponement of the hearing date from November 20, 2019 to January 29, 2020. The Applicant has discovered that the site has significant public space and grading issues which require the Applicant to work with DDOT and DCRA to resolve. The resolution of these issues could impact the configuration or location of the proposed building, and the Applicant therefore hopes to have them resolved before coming before the Board.

Thank you for considering this request.

Sincerely,

Martin P Sullivan
