Washington, DC 20001

Re: BZA Application No. 20119 of 1800 Kenyon Street, NW

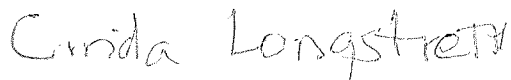

Dear Members of the Board,

My name is Cinda Longstreth and I am a thirty-year resident of 1803 Irving St. NW, which is directly across the alley from 1800 Kenyon St. Over the last three years my wonderful neighbors, Kate and Eric Goldstein, have pursued every legal step to pursue their garage-top deck. I hope that this is their final step.

I am writing to express my full support for their BZA Application. Eric and Kate are requesting relief in order to put guardrails on top of their garage in the manner that is safe and in alignment with the culture of the community. I support the request for the guardrails and their ability to access to the roof of the garage. The request does not impact my ability to enjoy my property and I appreciate them taking the time to explain the request.

Accordingly, I ask that the Board support this application. Thank you for your time and consideration.

Sincerely,

Cinda Longstreth  
1803 Irving St. NW
