Good morning all,

While I appreciate the consideration of community input, my understanding of this project is that it involves an application for work completed in 2011, and that there will be no new construction. Given the circumstances, I do not anticipate providing formal ANC input. I note that the process of providing that input, under our bylaws, can be time-consuming, and may delay the public hearing on this issue.

I will include this in my upcoming newsletter to the community but do not anticipate any issues, given the nature of the project.

Please let me know if you have any other questions.

Best,  
Nick Cheolas
