

Please find photos showing the continued illegal parking by contractors at the proposed Call Your Mother location. Every single day for the past 4-6 weeks there have been 3-6 vehicles parking in Zone 2 residential spots all day long. Some of the vehicles have been ticketed, but even after receiving a ticket for parking for more than 2 hours at 9 am, they just stay all day. These vehicles are taking scarce spots away from the residents. Moreover, the contractors know they are not allowed to park as the ticketing agent has informed them, yet they keep doing it. The third photo depicts 3 contractor vehicles on the same block. This speaks volumes about the kind of neighbors Call Your Mother will be.

Moreover, this is exactly what will happen if the restaurant is permitted to open – except patrons will not be ticketed as they will be allowed to take our rare spots for two hours.

This photo shows three vehicles all parked in a row, belonging to contractors at Call Your Mother.

This photo, from a different day, shows the same pick up truck and two vans belonging to the contractors at Call Your Mother. All were ticketed at 9 am, but this photo was taken at noon. They cannot park for more than 2 hours in Zone 2, yet persist everyday, all day.
