Dear Commissioner Hanlon:

I am very concerned about an issue in my neighborhood for which I would appreciate your intervention. I understand that there is a planned addition at 1832 15th Street, NW, which will considerably alter the quality of life of the neighbors on each side.

We live in very close quarters here in the city and it is extremely important that we respect the space and needs of our neighbors. Having said that, I am totally opposed to anyone who moves in with the idea of serving their own needs at the expense of their neighbors.

We would all appreciate your intervention in this issue. We want thoughtful neighbors with concern for others, not ones who only think of their own goals.

Thank you for any help you can give in this issue.

Sincerely,
/Ellen Mercer/
