I write to oppose the River School plan to expand off of Nebraska Avenue. I am sure there are many legal objections, and engineering complications, but the simple reality is that the intersection of Nebraska Avenue and Van Ness cannot handle any more cars in the morning.

I drive that route 5 days a week and the combination of NPS and Janney school drop offs already creates a five minute delay. The intersection would simply break down if you added any more cars. It just won't work. You will create real delays and some traffic danger around that area that will impact commuting and American University. It is just the wrong place for a new school.

Thank you.
