BZA Application No: 20568

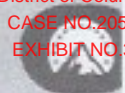

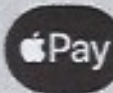

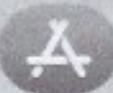

To whom it may concern,

I am writing to express my opposition in regard to the zoning relief for construction on 1801-1805 Maryland Ave NE. As a resident of 1002 18th St. NE, I can see the buildings in question from my front door. Not only would this project negatively impact already scarce parking availability, but the zoning relief could have spillover on our one way up hill street. This neighborhood shines in its residential charm, most neighbors know each others names. The building of this 5 story, 28 unit residential apartment building, will shadow much of what makes this already gentrifying neighborhood special.

Sincerely,
Anna DiGiovanni
