To whom it may concern,

I am the owner of 5180 Fulton Street, NW and my home is attached to 5182 Fulton Street, NW.

Mr. Halligan and I have discussed his renovation plans, to include the addition to the rear of his home. He indicated that due to the neighborhood's zoning designation that his plans may need to be evaluated and approved by the zoning board. Further, he noted that as part of the zoning board's assessment, they consider feedback from neighbors.

It is my opinion that the addition and improvements will only enhance the property, allowing Mr. Halligan to maximize the wonderful views to the south, and continue a trend where owners are improving their homes on Fulton Street.

I am in full support of his renovation plans and more importantly they will not change or impact the appearance of his home from the street. I feel his changes will only add to the charm and beauty of the neighborhood that we all love and call home.

Regards,

Deborah Rosario
