*Re : Support for BZA Case No. 20593
Blessed Sacrament - Recreational Playing Field Continued Use*

January 10, 2022

Dear Board Members,

On behalf of my husband and family, I issue our strong support for Blessed Sacrament School's continued use of their recreational playing field located at 3637 Patterson Street.

Since 2017, when we purchased our home on Quesada Street and became across-the-street neighbors of the Blessed Sacrament School and parish, we've witnessed only positive and healthy outcomes from the use of the field by the school's students and neighbors. We wish to maintain the use of the field in the current state, with continued access for neighboring households including on the weekends.

Additionally, I support Blessed Sacrament School's request to include in the definition of "neighboring households" square 1862 (the north side of Quesada Street) who should continue to have access to the recreational field.

Thank you for your consideration.

Sincerely,

Allison Jenkins
