Hi Neighbor

Picasso Gallery has applied to the city to extend the back of his property to increase his storage capability. His business has been affected by the COVID and loss of parking in the neighborhood and this addition will help his business.

Our neighborhood is blessed with a vibrant commercial strip that makes our community the livable walkable neighborhood that is sought after. We should aid and encourage Picassos' small, family-owned business wherever we can.

I approve the application and hope you will also and send him a note to that effect.
