**Letter to Withdraw Support**

**To:** ANC 6C Commissioners

**From:** Carlin Discigil

**Re:** Case 21163

My name is Carlin Discigil and I reside at 614 E Capitol Street NE, Apt. 7, Washington, DC, 20003. In January 2024, I was approached by Kaely Michels-Gualtieri about my support for an expansion project at her home. I was told that the project would enhance the garage into a Carriage House, similar to the size and scope of my current home. As a satisfied renter on Capitol Hill, I had no objection. Upon learning more information about the project and the individual who approached me, I am officially rescinding my support.

While I claim ownership for not requesting to see the architectural drawings and blueprints for the project before signing, I believed the family to be well-intentioned when they referenced my current home as an accurate representation for the project - as a substitute for showing me the original designs of the project. Since January 5, 2024, I have not been contacted nor notified of a public hearing about an update on the project and feel that my support was gained deceitfully and inappropriately. If the family is going to identify me as a supporter of the expansion, I believe it would be in their best interests to update supporters on the progress of the zoning regulations and construction.

In addition, to my knowledge, Kaely Michels-Gualtieri does not reside at 627 A Street NE. I have lived here for four years, have never met her, and was told by Kaely in January that she had moved back to Washington, DC to manage this project. As I have not seen her, nor heard from her on the status of this expansion, I can assume that she is not the true resident and owner of these requests.
