

**Dana O. Foerster, AIA**  
*Senior Associate, Architect*

Kent State University, Master of Architecture (2005)  
Kent State University, Master of Business Administration (2005)  
Kent State University, Bachelor of Science in Architecture (2003)

Dana is a senior project architect and designer who has been instrumental in several of the firm's high profile healthcare projects. He has over 15 years of experience leading design for complex, phased multi-million-dollar projects in healthcare as well as a number of other industry sectors, including performing and cultural arts, government, and mixed-use residential. Skillful in all phases of design, from programming and conceptualization to construction administration, including managing design development and stakeholder presentations. He believes that with active listening and dialog with all project team members, highly functional solutions can be beautifully crafted to enhance the human experience.
