**Subject:** Re: 6th & L St Intersection

Hi Commissioner,

Thank you for bringing this to our attention. As I mentioned in our call, the parking conditions at 6<sup>th</sup> and L are not aligned with the regulation specified in 18 DCMR § 2405.2.

I will flag DGS's presentation to our teams internally and we will bring them up to speed on the district's parking regulations.

Thanks,

--

**Subject:** Re: 6th & L St Intersection

Good morning Christophe,

Thank you for speaking with me. Please see the attached PowerPoint. Please be aware this PowerPoint is public information. Please see slide 4 and 5. In slide 5, the counsel for the Department of General Services/Department of Corrections is trying to point out that If the parking across the street from 501 New York Ave. is up against the crosswalk then it must be OK. Can you please clarify about how some intersections need to be updated but new projects need to follow DDOT parking standards?

Again, thank you for your time,

Rachelle

**Subject:** 6th & L St Intersection

Hi Christophe,

On the NW corner of the intersection at 6th and L St., which has a stoplight, the cars are parked close to the crosswalk. Is this ok per DDOT standards? In addition, is the signage on the SW corner correct per DDOT standards? There is also a crosswalk. Why would there be a difference on the block across from it by 501 New York Ave. which you indicated would have to 50 ft and 24 ft from the crosswalk?

Thank you very much for the assistance,

Rachelle
